

DCCCA
IMPROVING LIVES

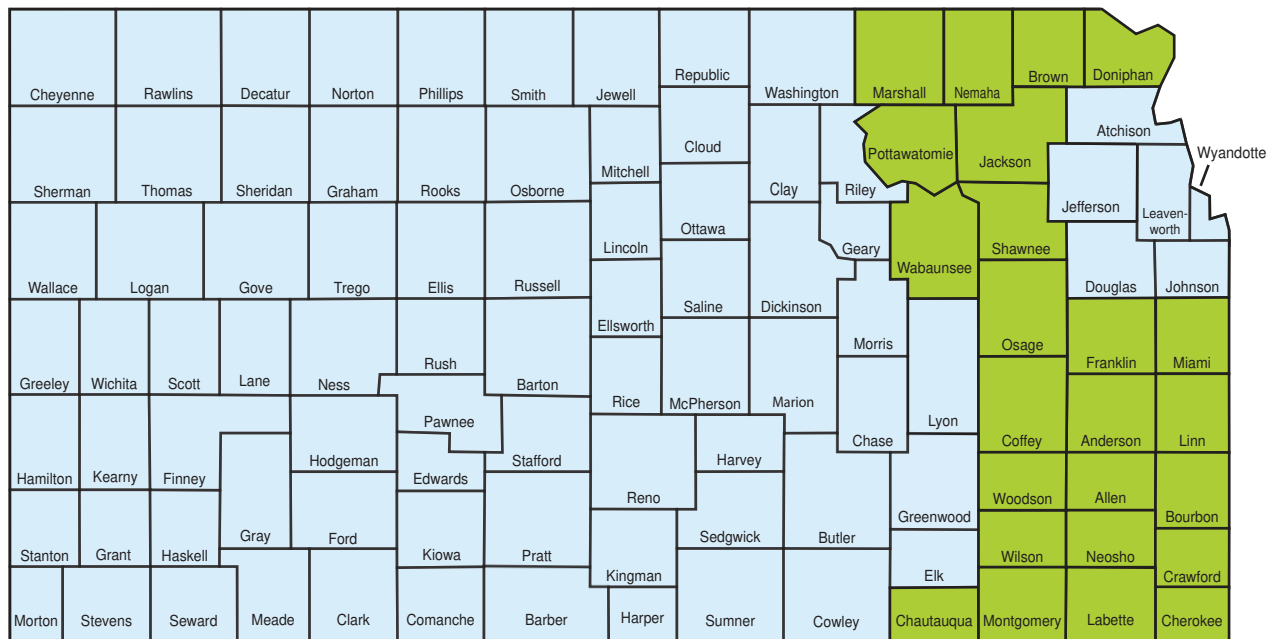

AD ASTRA PER ASPERA
Kansas WE KAN DRIVE
Department for Children and Families

In Kansas, parents support their teens in obtaining a driver's license and logging driving practice hours every day. This is a critical piece to help youth transition to adulthood. For teens in foster care, this can be more challenging. We Kan Drive provides an opportunity to remove barriers to obtaining a driver's license. DCCCA and the Department for Children and Families are partnering to provide education and financial support to help teens/young adults ages 14-21 obtain their driver's licenses.

This program is free to participants in the highlighted counties. ↓

Reimbursement may be available for the following:

- Driver's education courses
- Auto insurance
- Fees associated with obtaining a driver's license
